Deb's Country Corner

Hello Country Folks,

Finally got around to cleaning out that desk drawer that's been overflowing for two years now. I threw out all the miscellaneous three year old receipts, and the old insurance policies, and such, but I found the following article, I clipped it out of a newspaper many years ago. It was signed "Anonymous", so I can't even give credit to its author. Maybe you'll get a chuckle out of it, too...

I'M TIRED

YES, I'm tired. For several years I've been blaming it on middle-age, iron poor blood, lack of vitamins, air pollution, water pollution, saccharin, obesity, dieting, under-arm odor, yellow wavy buildup, and other maladies. But now, I find out it just isn't that. I'm tired because I am overworked. Here's why:

The population of this country is 200 million. Eighty-four million are retired. That leaves 116 million to do the work.

There are 75 million in school, which leaves 41 million to do the work. Of this total, there are 22 million employed by the government. That leaves 19 million to do the work.

Four millions are in the Armed Forces, which leaves 15 million to do the work. Take from that total the 14,800,000 people who work for the state and city governments and that leaves 200,000 to do the work.

There are 188,000 in hospitals, so that leaves 12,000 to do the work.

Now, there are 11,998 people in prisons. That leaves just TWO people to do the work. You and me. And you're sitting there reading this.

No wonder I'm tired.

Recipe for the week.

Seafood Salad

1 lb. imitation crab meat (This is sold under various names: Sea Legs, Sea Chunks, etc. You can buy it frozen or fresh)

1/2 cup low cal mayonnaise

1/4 cup low cal plain yogurt

1/4 cup imitation sour cream

1/2 cup chopped celery

1/4 cup chopped carrots

1/4 cup chopped green pepper

1/4 cup chopped sweet red pepper

1 teaspoon celery seed

Dash of garlic

Mix all ingredients, adjusting the mayonnaise to your tastes. Refrigerate overnight.

HOUSEHOLD FOR THE WEEK. Freshen up your couch cushions and pillows up tossing into the dryer with one of the commercial dryer/softener sheets. Takes out the "musties" and gets rid of the static.

THOUGHT FOR THE WEEK. Remember, we all learn from our mistakes. And most everyone I know never lacks for study materials.

Bye for this week.
